Brett Schoff

Software Engineer

Keenesburg, CO | 303-522-0276 | Brett.schoff@gmail.com | [LinkedIn](#) | [Portfolio](#)

I am an experienced software engineer with teamwork focus and tech enthusiasm. Customer service skills and collaboration expertise gained from parts sales and bodyshop estimator roles. Now leveraging technology passion to innovate solutions for global simplicity and improvement.

SKILLS

- **Languages:** Javascript, HTML, CSS, SQL
- **Libraries/Frameworks:** Express.js, Bootstrap, Node.js
- **Databases and others:** MongoDB, RESTful Routing, CRUD Operations

SOFTWARE ENGINEERING PROJECTS

BS Job Hunter | May 2023 [Deployed Link](#)

- Collaborated with a partner to create a job application tracker. The app allows users to create and update the status of applications while allowing the user to keep notes about each application.
- MERN full-stack application using semantic UI for css and deployed with render.

Harvest Homestead | April 2023 [Deployed Link](#)

- Collaborated in a team of 3, to create a wiki-resource for farmers. The app allows users to view and add animals, crops, and equipment so they have easy access to information that may be relevant to them.
- Coded with Python and Django. Deployed with Fly.io.

Run? Run. Run! | March 2023 [Deployed Link](#)

- Designed a browser based game and deployed it through GitHub Pages.
- Utilized Javascript along with HTML and CSS to create a functional product within 1 week time.
- Used Javascript to create a random event generator that changes the gameplay everytime the user wants to play.

EXPERIENCE

Phoneroom Parts Expert | Transwest, Truck & Trailers | Brighton, CO | February 2020 - February 2023

- Collaborated with a team of 8 people to provide parts to up to 150 customers in the rocky mountain region a day.
- Promoted from Parts Counter Expert due to exemplary customer service.
- Coordinated with a dispatch team to ensure timely deliveries of customers' parts.

Parts Counter Expert | Transwest, Truck & Trailers | Brighton, CO | March 2015 – February 2020

- Executed data entry and retrieval on computer systems, including entering of customer orders, branch transfers, inventory information, and pricing.
- Provided customer service and assistance to up to 70 walk-in customers and technicians a day.
